

## Busbar Trunking

## XMC19T Busbar Trunking System

Compact sandwich-type busbar trunking system for high-current power distribution in buildings, data centers and industrial plants.

### TECHNICAL SPECIFICATIONS

Rated Current	250 – 6300 A
Rated Voltage	AC 690 V
Conductor	Copper / Aluminum
Protection Level	IP54 / IP66
Standards	GB 7251 / IEC 61439-6

### KEY FEATURES

- ▶ High current density, compact sandwich design.
- ▶ For high-rise buildings, data centers and plants.
- ▶ Flexible tap-off for distributed loads.
- ▶ Fire-resistant options available.
