

Dry-Type Transformer

SCB11 Cast Resin Dry-Type Transformer

Epoxy-resin cast dry-type transformer. Flame-retardant and moisture-resistant — safe for indoor installation in hospitals, malls and high-rise buildings.

TECHNICAL SPECIFICATIONS

Rated Voltage	6kV / 10kV
Capacity	100 – 2500 kVA
Insulation Class	Class F / H
Enclosure	IP20 (optional IP23)
Connection	Dyn11 / Yyn0
Standards	GB 1094.11 / IEC 60076-11

KEY FEATURES

- ▶ Epoxy-resin cast winding — flame-retardant (F1 class).
- ▶ No oil, no fire hazard — safe indoors.
- ▶ Moisture- and contamination-resistant.
- ▶ For metro, hospitals and data centers.
