

## SF6 Ring Main Unit

## XNRM6-12 Fully-Sealed SF6 Gas-Insulated Ring Main Unit

Fully-sealed, fully-insulated SF6 gas-insulated RMU for 12kV. Maintenance-free for underground, coastal and high-humidity environments.

### TECHNICAL SPECIFICATIONS

Rated Voltage	12 kV
Rated Current	630 A
Insulation Medium	SF6 gas
Enclosure	3mm stainless steel, fully sealed
Configuration	C / F / V / D multi-unit
Service Life	30 years maintenance-free
Standards	GB 3906 / IEC 62271-200

### KEY FEATURES

- ▶ Fully-sealed SF6 insulation — zero maintenance for 30 years.
- ▶ Flexible multi-unit configurations (load-switch, breaker, metering).
- ▶ Stainless-steel tank for harsh / wet environments.
- ▶ Compact for urban cable ring-main points.
