

Box Substation

YB Series European Prefabricated Substation

Smart integrated European-style prefabricated (compact) substation combining HV switchgear, transformer and LV distribution in one weatherproof enclosure.

TECHNICAL SPECIFICATIONS

HV Voltage	up to 12 kV
LV Voltage	0.4 kV
Transformer	S11 / S13 / dry-type
Capacity	up to 2500 kVA
Protection	Integrated, weatherproof
Standards	GB/T 17467 / IEC 62271-202

KEY FEATURES

- ▶ All-in-one HV + transformer + LV enclosure.
- ▶ For urban grids, residential and industrial parks.
- ▶ Factory-assembled, fast on-site installation.
- ▶ Smart monitoring and protection ready.
