

Box Substation

ZGS13-H American-Style Combined Substation

American-style (pad-mounted) combined substation integrating HV load-break switch, fuse protection and transformer in a compact sealed tank.

TECHNICAL SPECIFICATIONS

Voltage Class	10 – 35 kV
LV Voltage	0.4 kV
Transformer	Oil-immersed / dry-type
Capacity	up to 2500 kVA
Type	Pad-mounted, sealed
Standards	GB/T 17467 / DL/T 549

KEY FEATURES

- ▶ Compact pad-mounted sealed design.
- ▶ For residential, commercial and industrial sites.
- ▶ Integrated HV switch + fuse + transformer.
- ▶ Low maintenance, weatherproof.
